

Code for data dumping in specific time

June 16, 2023

```
[ ]: # Code for collecting customer data using pandas
master_data = pd.read_csv('master_data.csv') # Assuming you have a CSV file
↳ named 'customer_data.csv'

# Example code for dumping customer data to a master file or data lake
master_data.to_csv('master_file.csv', index=False) # Dumping the customer data
↳ to a CSV file named 'master_file.csv'

[ ]: # Define the time at which the batch should run
batch_time = "08:00"

# Schedule the batch process
schedule.every().day.at(batch_time).do(data_dump)

# Run the scheduler
while True:
    schedule.run_pending()
    time.sleep(1)
```
